1882.

WE ARE NOT RESPONSIBLE

For any one representing himself to be our agent. Those only who can show a certificate of recent date, with our signature attached, are authorized to solicit orders for us. Some unprincipled persons, knowing something of the good reputation of our nurseries, in a surreptitious manner have procured our catalogues, and taken orders which were filled from poor stock procured elsewhere, the tendency being to bring us into disrepute. If our patrons will notify us of such persons we will consider it a favor, and deal with them as they deserve.

HOW TO VISIT OUR NURSERIES.

Take the morning train (C. P. R. R.) by way of Oakland. Procure a ticket to San Jose and return. Notify the conductor to stop the train at *Wayne Station*, which is fifteen minutes' walk from nurseries. Visitors, if they desire it, can return by the afternoon train, which will allow them about three hours' time.

PLANTS AND TREES BY MAIL.

We will send small Trees and Plants by mail, providing that these are at such stage of growth and size to allow them to be packed in small packages not exceeding four pounds. An additional charge of one cent per ounce will be made for postage on all packages sent by mail. We cannot guarantee their safe delivery, but will in all cases use our utmost care in the packing and execution of mail orders.

ADVICE TO CORRESPONDENTS.

Correspondents will greatly oblige us by observing the following:

All orders should be made out in a list by themselves—not mixed up with the body of the letter.

Persons not acquainted with the different varieties of fruit will do well to leave the selection to ourselves, as we shall send only such as give general satisfaction.

All orders from unknown correspondents must be accompanied with remittance or satisfactory reference.

All trees are carefully labelled and packed in the best manner of shipping, according to distance, for which a charge will be made only to cover first cost of material and labor.

All articles will be delivered to the railroad depot without charge.

Packages are at the risk of the purchaser after shipment.

Any errors of ours in filling orders will be cheerfully rectified on our receiving notice.

Remittance may be made by check or draft on San Francisco or San Jose, postoffice order, or registered letter.

Letters requiring information promptly answered.

~~For~~ Correspondents will please address all letters to John Rock, Nurseryman, San Jose, Cal.

JANUARY 1, 1882.

DECIDUOUS ORNAMENTAL TREES.

Ailanthus Glandulosa —A lofty, rapid-growing tree, exempt from diseases and insects. 25 cts. to.....	\$0 50
Ash, European (<i>Fraxinus</i>)—Makes a tall tree, with spreading head.....	50
“ Gold-barked (<i>Aurea</i>)—A fine, conspicuous tree in winter.....	75
“ Single-leaved (<i>Monophylla</i>)—Has single broad leaves. A strong grower	75

“ Melanoxylon —Makes a fine symmetrical tree, of large size.....		50
“ Retinoides		50
“ Mollissima —An elegant tree, with fine feathery foliage.....		50
Araucaria Bidwellii —This makes one of the handsomest specimens on a lawn, and perfectly hardy.....		\$3 to 5 00
“ Braziliensis (<i>Brazilian Pine</i>)—A most beautiful evergreen tree; habit symilar to the Chili Pine; it is perfectly hardy.....		5 00
“ Cookii		\$3 to 5 00
“ Cunninghamii —Growth and habit like Norfolk Island Pine; hardy.....		3 00
“ Excelsa (<i>Norfolk Island Pine</i>)—It requires protection in the interior of the State, but is hardy all along the coast south of San Francisco.....		\$3 to 5 00
“ Imbricata (<i>Chile Pine</i>).....		\$3 to 5 00
“ Rulei		5 00
Arbor Vitæ, American (<i>Thuja Occidentalis</i>)—White Cedar of the Eastern States; very hardy.....		1 00
“ Chinese Golden Variegated —A beautiful tree, variegated with golden yellow.....		1 00
“ Chinese Silver Variegated —A very fine variety, variegated with silver white.....		1 00
“ Elegantissima —A beautiful tree of Pyramidal form, with foliage prettily tipped with deep yellow, which it retains throughout the year.....		1 00
“ Ever Golden (<i>Semper Aurea</i>)—A new variety of the Golden Arbor Vitæ of dwarf habit, but of a free growth. It retains its golden tint the year round. One of the best golden variegated evergreens.....		\$1 to 2 00
“ Filiformis Pendula —Weeping, thread-like foliage; very curious.....		1 00
“ Filiformis —A most beautiful compact growing variety, having thread-like foliage. Very rare.....		1 00
“ Golden (<i>Biota Aurea</i>)—One of the most beautiful of evergreen trees; foliage yellow in Spring.....		\$1 to 2 00
“ Giant (<i>Thuja Lobbii</i>)—This California Arbor Vitæ is quite scarce; it is a very fast-growing variety, and grows to a large size; branchlets very flexible and slender; shining green on the upper side and glaucous underneath.....		1 00
“ Hovey's —A dwarf growing variety of the American Arbor Vitæ, of a globular form and yellowish green foliage; very hardy....		1 00
“ Siberian —Of compact and pyramidal growth; exceedingly hardy.....		50
Blue Gum (<i>Eucalyptus Globulus</i>)—The well-known Australian tree 25c to To parties wishing to purchase Blue Gums by the 100 or 1,000 we will give special prices on application.		50
Big Tree (<i>Sequoia Gigantea</i>)—Makes a fine pyramid.....		1 00

Casuarina Stricta—An erect growing tree, with thread-like leaves	\$0 75
“ Quadrivalvis	75
Cedar, African, or Silver Cedar—A magnificent tree of great height \$2.50 to	5 00
“ Atlantica Glauca	3 00
“ Deodar—One of the most elegant of all evergreen trees; branches drooping, foliage light blue, \$2; extra large specimens, five feet high, each	5 00
Cedrus Deodor Crassifolia	3 00
“ “ Verticillata Glauca	3 00
“ “ Variegata	5 00
“ of Lebanon—One of the most celebrated and interesting trees, \$2; extra large specimens, five feet high, each	5 00
Cephalotaxus Eortunei—A very handsome tree from Japan	1 00
Cratægus Glabra (Photinia)—A handsome tree, with large, glossy leaves and white flowers, 50c to	1 00
Cryptomeria Japonica (Japan Cedar)—A beautiful tree from China and Japan, growing 50 to 60 feet high, presenting a beautiful appearance	1 00
“ Japonica Var. Elegans—Usually classified as a species. It is an elegant and distinct form, and makes a fine specimen	2 50
Cunninghamia Sinensis—A pleasing evergreen from China, 30 to 40 feet in height, with long, bright glossy green foliage, and of regular outline	2 00
Cypress Elegans—A new, fast-growing variety, with bluish foliage	50
“ Funeral (Funerbris)—Beautiful drooping foliage; well adapted for planting in cemeteries 50c to	1 00
“ Gracilis—Foliage of a beautiful glaucous green, and regular outline of growth; promises to make a handsome tree	1 00
“ Lusitanica	75
“ Lawson's—A very graceful tree, with a bluish green foliage	75
“ Monterey—This tree is well-known and more planted than any other evergreen tree in California 25c to	50
“ Variegated—A variegated kind of the Monterey Cypress, the branches being mottled with yellow	2 00
“ Italian—This tree grows column-like, very erect, which gives it a striking appearance; much used for arches over gates and entrances	50
“ Religiosa—Beautiful glaucous foliage and drooping branches	1 00
“ Tournefortii—An upright growing variety, with a bluish tint	50
Damara Japonica—Fine evergreen tree from Japan	2 00
Eucalyptus Gunnii	50
“ Leucoxylon	50
“ Rostrata	50
“ Sideroxylon—Iron barked	50
These are all rapid growing varieties of the Australian Gum Tree.	
Ficus Macrophylla (Rubber Tree)—A magnificent tree with large leaves; this is hardy along the coast south of San Francisco, but is too tender for the interior of California \$1 to	2 00
Grevillea Robusta—A rare, beautiful tree of strong growth, with fern-like foliage	50

Juniperus Compacta —A compact dwarf growing tree; the foliage has a bluish tint.....	\$1 00
Juniper (<i>Irish</i>)—A compact, tapering, pretty little tree.....	75
Japonica Variegata (<i>Japanese Variegated</i>)—A fine, deep green variety, variegated with yellow.....	1 50
Juniperus Sabina (<i>Sabine</i>)—A low, spreading, growing tree, of a greyish green foliage.....	2 00
“ Swedish —A small sized, pyramidal tree, with bluish green foliage.....	50
“ Virginian (<i>Red Cedar</i>)—Has deep, green foliage; bears trimming well.....	1 00
Libocedrus Chilensis —A dwarf evergreen tree, having fern-like foliage, very graceful and rare.....	1 50
“ Viridis —Like the preceding, only the color is of a bright green.....	2 00
“ Decurrens —A fast growing tree, with flat branches standing erect.....	50c to 1 00

Pine (<i>Pinus</i>), Austrian —A robust, hardy, spreading tree, with long, dark leaves.....	1 00
“ Albicaulis —A fine, vigorous tree, having a whiteish color.....	1 00
“ Canariensis (<i>Canary Islands' Pine</i>)—A fast growing variety, with fine bluish foliage.....	1 00
“ Densiflora —This is a native of Japan, a tree of strong growth, rich, dark massive foliage, one of the finest of all Pines, new and rare.....	1 00
“ Halepensis —A fine bluish pine.....	75
“ Monophylla —Leaves short, bluish, standing single instead of in fascicles.....	1 00
“ Monterey (<i>Insignis</i>)—A very rapid growing tree, well known and planted everywhere.....	50
“ Pinea —A beautiful small tree from Arizona and Southern California, having a bluish tint, a very distinct tree.....	1 00

- Pine, Sabiniana**—A large, noble tree, valuable for landscape effects; it has a rapid growth, and its twisted, drooping leaves are very long, and of a silvery grey color.....\$1 00
- “ **Sylvestris** (*Scotch Pine*)—A rapid growing variety, one of the hardiest kinds..... 75
- “ **Tuberculata**—Makes a handsome tree of a fine light green color 75
- “ **White** (*Strobus*)—A very ornamental tree, foliage silvery green 1 00
- Redwood** (*Sequoia Sempervirens*)—A graceful, rapid growing evergreen tree, very valuable for its timber..... 50
- Retinospora** (*Japan Cypress*).....
- “ **Filicoides**.....
- “ **Pisifera**.....
- “ **Plumosa**.....
- “ **Plumosa Aurea**.....
- Small trees or shrubs, recently introduced from Japan, of moderate growth and well adapted for small gardens..... 1 00
- Sciadopitys Verticillata** (*Umbrella Pine*)—From Japan, slow growth when young, eventually large size; dark green shining foliage, arranged in whorls of umbrella-like tufts on horizontal branches, perhaps the most remarkable conifer from Japan..... 3 00
- “ **Verticillata Aurea Variegata**—A variety having the foliage dotted and striped with golden yellow; very rare.....10 00
- Sterculia Plantanifolia**—A new tree from China, with fine large foliage... 75
- “ **Diversifolia**—An Australian tree, with distinct and curious leaves 1 00
- Taxus** (*Yew*), **Adpressa**—Low-spreading, dark green leaves, branches numerous and densely covered with foliage..... 2 00
- “ **Aurea**—The color in June is of a rich golden hue, unsurpassed by any variegated evergreen..... 1 50
- “ **Aurea Elegantissima**—Light straw color in June, more of a dark towards Fall..... 1 50
- “ **Baccata** (*Common European Yew*)—Large bush or tree, slow growing, with short stems and very bushy head, densely branched, thickly covered with drooping, somber green leaves.. 1 00
- “ **Erecta** (*Erect Yew*)—Erect form, small foliage, very close and fastigate, forming a massive evergreen pyramid; one of the most effective of the few upright growing trees..... 1 50
- “ **Hibernica** (*Irish*)—An upright growing tree, with dark green leaves.....\$1 50 to 4 00
- Thujopsis Borealis** (*Nootka Sound Cypress*)—A graceful, dense, and large growing tree, with glossy green foliage..... 1 00
- “ **Borealis Glauca**—A beautiful tree with glaucous foliage..... 1 00
- “ **Borealis Viridis**—Like the preceeding, but the foliage is of a bright green..... 1 00
- “ **Dolabrata** (*Hatchet Leaved*)—Vigorous, horizontal branches, which are pendulous at the extremities, flattened leaves..... 1 50
- Loquat** (*Mespilus Japonica*)—A beautiful ornamental tree, with large, glossy, dark green leaves, producing white flowers, which have the delicious perfume of the Hawthorne..... 75
- “ **Variegated** (*Mespilus Japonica foliis Variegatis*)—Medium sized leaves, superbly variegated, choice and very rare..... 3 00

Chamærops Excelsa.

PALMS, DRACAENAS, AGAVES, YUCCAS, ETC.

- Brahea Edulis**—A fine Fan Palm from Mexico, of a robust growth.....\$2 50
- “ **Calcarata**—An elegant Fan Palm, of slender growth, from New Granada, very scarce..... 3 00
- Chamærops Excelsa** (*Japanese Fan Palm*)—A very hardy Palm, with an erect stem, 20 to 30 feet high, and dark green, erect, fan-shaped leaves, deeply cut into narrow segments.....\$1 to 5 00
- “ **Hystrise**—A slow-growing, glaucous Fan Palm, native of the Southern States..... 3 00
- “ **Humilis**—A Fan Palm of dwarf habit; it is a native of Southern Europe, and very hardy; this makes a splendid specimen if planted by itself on a lawn.....\$1 to 2 50
- “ **Martiana**—A variety resembling *Chamærops Excelsa*, but it is more hardy, thus enabling it to be grown further north than *Chamærops Excelsa*..... 3 00
- Corypha Australis**—An Australian Fan Palm of rapid growth and great beauty..... 3 00
- Cycas Revoluta** (*Sago Palm*)—Fine, dark glossy pinnate leaves..\$1 50 to 5 00
- Dion Edule**..... 5 00
- Encephallartos Miguellii**—A very beautiful specie, with finely divided leaves; strong plants..... 3 00
- Latania Barbonica**.....\$1 50 to 5 00
- Oreodoxa Regia**..... 5 00
- Pandanus Utilis**—Very fine specimens of this desirable plant.....\$3 to 5 00
- “ **Veitchii**—Strong young plants, finely variegated..... 3 00
- Phœnix Dactylifera** (*Date Palm*)..... 1 50
- “ **Canariensis**—A more hardy variety than the foregoing..... 2 00

BAMBOOS.

We can confidently recommend to all lovers of trees and plants the following varieties of Bamboo, after having tried them for a number of years, to be perfectly hardy and vigorous. Nothing can exceed the grace of a bamboo of any kind if freely grown. To obtain the best results in their cultivation, they should be planted in a light, deep, and rich soil.

- Bambusa Aurea**—A very hardy and graceful Chinese specie, forming elegant tufts, with slender, much-branched stems, which attain a height from seven to ten feet, and are of a light green color when young, changing into a yellowish hue, and finally becoming a straw yellow when fully grown. \$2 50
- “ **Aurea Striata**—Of a dwarfer variety than the above; the leaves are striped with golden yellow. 2 50
- “ **Argentea Striata**—A variety having black stems; the foliage is striped white. 2 50

Bambusa Falcata (<i>Arundinaria Falcata</i>)—A very ornamental specie from Nepal and the Himalayas; grows 20 feet high; it sends up young shoots, long and graceful, like the slenderest of fishing rods, while the older ones are branched into a beautiful mass of light foliage of a distinct type	\$2 00
“ Fortunei —A dwarf, free-growing variety, having the foliage striped with white.....	75
“ Japonica (<i>Melake</i>)—A large leaved and rather dwarf specie from Japan, growing 7 feet high, with erect, thickly tufted stems, which are entirely covered by the sheaths of the leaves; the branches are also erect; dark green leaves.....	1 50
“ Nana —A very dwarf growing kind of a light green color.....	1 50
“ Nigra —A compact growing Chinese kind, with nearly solid stems, and thinner leaves than those of any other specie; stems smooth and bushy, about 7 to 10 feet high, of a light green, dotted and striped with purple when young, changing to a glistening black when fully grown; they branch very much at the top, and sometimes from the base up.....	2 50
“ Quiloi —A Japanese species of vigorous growth, with robust green stems and bright green leaves, the ligule bearing a little bundle of brownish grey hairs at the top	2 50
“ Simonii —A handsome, distinct and vigorous species; the stems are numerous and grow as much as 10 feet high in a season; the leaves are narrow, sometimes nearly a foot long, and are occasionally striped with white.....	3 00
“ Vialascens —A hardy and vigorous kind; it has a blackish violet, much-branched stem, which assume a yellow tinge with age; the leaves are green above, bluish grey beneath.....	2 50
“ Viridis Striata —Vigorous growing, hardy, with numerous branches, having its long, green leaves on both sides, and marked with bands, some of ayellowish and others of a deeper green; native of Japan.....	2 50

Mimulus Harrison (<i>Harrison's Musk</i>)—This variety is a great improvement on the old variety, the leaves and flowers being much larger.....	50
Primula Sinensis (<i>Chinese Primrose</i>).....	30
“ Double	1 50
Pelargoniums (<i>Lady Washington</i>)—A very fine collection of strong varieties; price for strong plants.....	35 to 50
Passiflora —In varieties; splendid climbing plants for the greenhouse...	50
Tacsonia Exoniensis —The flowers are of a soft, light magenta, stained purplish at the base, which forms a circle of that color at the throat.....	50
“ Floribunda	50
“ Ignea	50

Calla Lily.

Spotted Calla Lily.

- Tacsonia Splendens**—Scarlet.....\$0 50
 The Tacsonias make most beautiful climbers for the greenhouse, and they will flower very nicely out-door if planted in a sunny situation. They should be protected in very cold weather.
- Thunbergia Harrisii**—A rapid growing climber; the flowers are large, like those of the Gloxinia, color porcelain blue with yellow throat..... 50
- Stephanotis Floribunda**—One of the most beautiful climbers known; flowers white, waxy and deliciously fragrant..... 1 00
- Strelitzia Reginae** (*Bird of Paradise*)—Strong plants.....\$3 to 5 00

AQUATIC PLANTS.

We would call attention to the following list of plants; they are all easily grown. All will be found to be very beautiful for their flowers and foliage, and for their fragrance. They all succeed if planted in ditches, ponds, or near artesian wells. The soil should be made rich.

- Calla Lily** (*Richardia Maculata*)—The flowers are white.....\$0 25
- Cyperus Alternifolia**—A most beautiful plant; the foliage is very elegant, 40
- “ **Alternifolia Folia Variegata**—Like the above, except the foliage is variegated with white..... 50

Nymphaea Odorata.

- Limnocharis Humboldtii**—A pretty Aquatic, with oval leaves and yellow, poppy-like flowers, standing out of the water; it can be grown either in the shade or exposed to the sun; the plant spreads rapidly; does well in shallow water.\$0 40
- Nuphar Advena**—This is very beautiful; admirably adapted for growing in ponds, cisterns or lakes; the flowers are yellow, and the foliage is large and fine 1 00
- Nymphaea Coerulea**—This species is a native of Egypt; it has bright green leaves and light blue flowers, about five inches across; they are very fragrant, the perfume being entirely distinct from that of Nymphaea Odorata; it is easily cultivated in a tub or a tank, or it may be planted out in a pond where the water is still and the mud is rich; the flowers open in the daytime. \$1 50 each; per dozen.....10 00

NIGHT-BLOOMING WATER LILIES.

Unlike our wild Water Lilies (Nymphaeas Flava and Odorata), the following two kinds open their flowers at night, beginning about eight o'clock and remaining expanded until about ten the next morning, each flower opening five nights in succession; they stand on strong foot stalks ten or twelve inches above the surface of the water.

- Nymphaea Dentata**—This species is a native of Sierra Leone, and has white flowers with petals expanding horizontally, making them star-shaped; they have an agreeable odor; the leaves are a rich green with serrated edges; the leaves attain, by good culture, about two feet across, and the flowers a diameter of from ten to twelve inches. Price for fine young plants, \$3 each; stronger.\$5 00
- “ **Devoniensis**—This is the choicest Water Lily in cultivation; under liberal treatment it produces flowers from ten to twelve inches in diameter and leaves two feet across; if confined in pans, tubs or boxes the flowers are smaller, but otherwise just as fine; the color is a brilliant red, glowing by lamplight with indescribable color; fine, strong plants, each..... 6 00

- Nymphaea Flava**—This is a true Water Lily, with yellow flowers and a delicate perfume; its leaves are smaller than those of *Nymphaea Odorata*, and beautifully variegated with brown; it is an excellent plant for the aquarium, or it may be grown in tubs; native of Florida; this species blooms during the daytime.....\$0 50
- “ **Odorata**—This is the native North American Water Lily. Its lovely white flowers are very fragrant; it can be successfully grown in a tub; where the mud is rich it will produce flowers six inches and leaves thirteen inches across. Strong roots 50 cents, or per dozen..... 5 00
- Oruntium Aquaticum** (Rhodea)—Flowers yellow; the foliage has a silvery hue if submerged in shallow water; 35 cents each, or per dozen 3 00
- Pontederia Cordata**—Another interesting plant for shallow water, with heart-shaped leaves and spikes of blue flowers, produced all Summer; price for strong plants 40 cents each, or per dozen... 4 00
- Sagittaria Sagittifolia**—The flowers are white, with handsome foliage.... 35

JAPANESE PLANTS.

We offer the following collection of Japanese trees, shrubs, plants, etc., all of which will be found of special interest and of great beauty.

- Acer Polymorphum** (and its varieties)—We call particular attention to the Japanese Maples; they are trees of dwarf habit, the foliage is finely cut and elegantly variegated.....\$1 50
- “ **Japanese Trained Maples**—These are finely trained plants, having several varieties grafted on one plant..... 2 50
- Azaleas**—Double and single varieties, the colors varying, white, purple, light purple, red, light yellow and yellow; each.....\$1 00 to 2 50
- Cinnamomum Cericeum** (Japanese Cinnamon)—A handsome evergreen tree, with pale yellow flowers..... 1 50
- Daphne Elegantissima**—A most elegant variety of *Daphne*; the foliage is long and narrow, and nicely margined with golden yellow.... 5 00
- “ **Genkwa**—A beautiful, slender growing shrub, with numerous long, downy twigs, which in early Spring, before the leaves appear, are thickly garnished with violet-colored tubular flowers 1 50
- “ **Japonica**—A very handsome shrub, producing during the Winter and early Spring months a profusion of pure white, sweet scented flowers; price of strong plants..... 1 50
- “ **Japonica Folia Variegata**—Like the above, except the flowers are of a light pink, and the foliage is margined with creamy white. 1 50
- Magnolia Stellata**—A beautiful small double flowering *Magnolia*, the flowers are white, suffused with pink, and highly fragrant. 3 00
- “ **Halleana**—Flowers double white, resembling the American Water Lily..... 2 00
- “ **Kobus** (*Thurber's Japan Magnolia*)—Medium size, bushy form, flowers bluish white, sweet scented..... 1 50
- “ **Soulangeana Nigra**—Resembling *Magnolia Soulangea*, but the flowers are of a very dark color..... 3 00
- Osmanthus Illicifolius Argentea Variegata**—Dwarf, Holly like appearance, flowers small white and sweet scented, leaves variegated with white..... 1 50

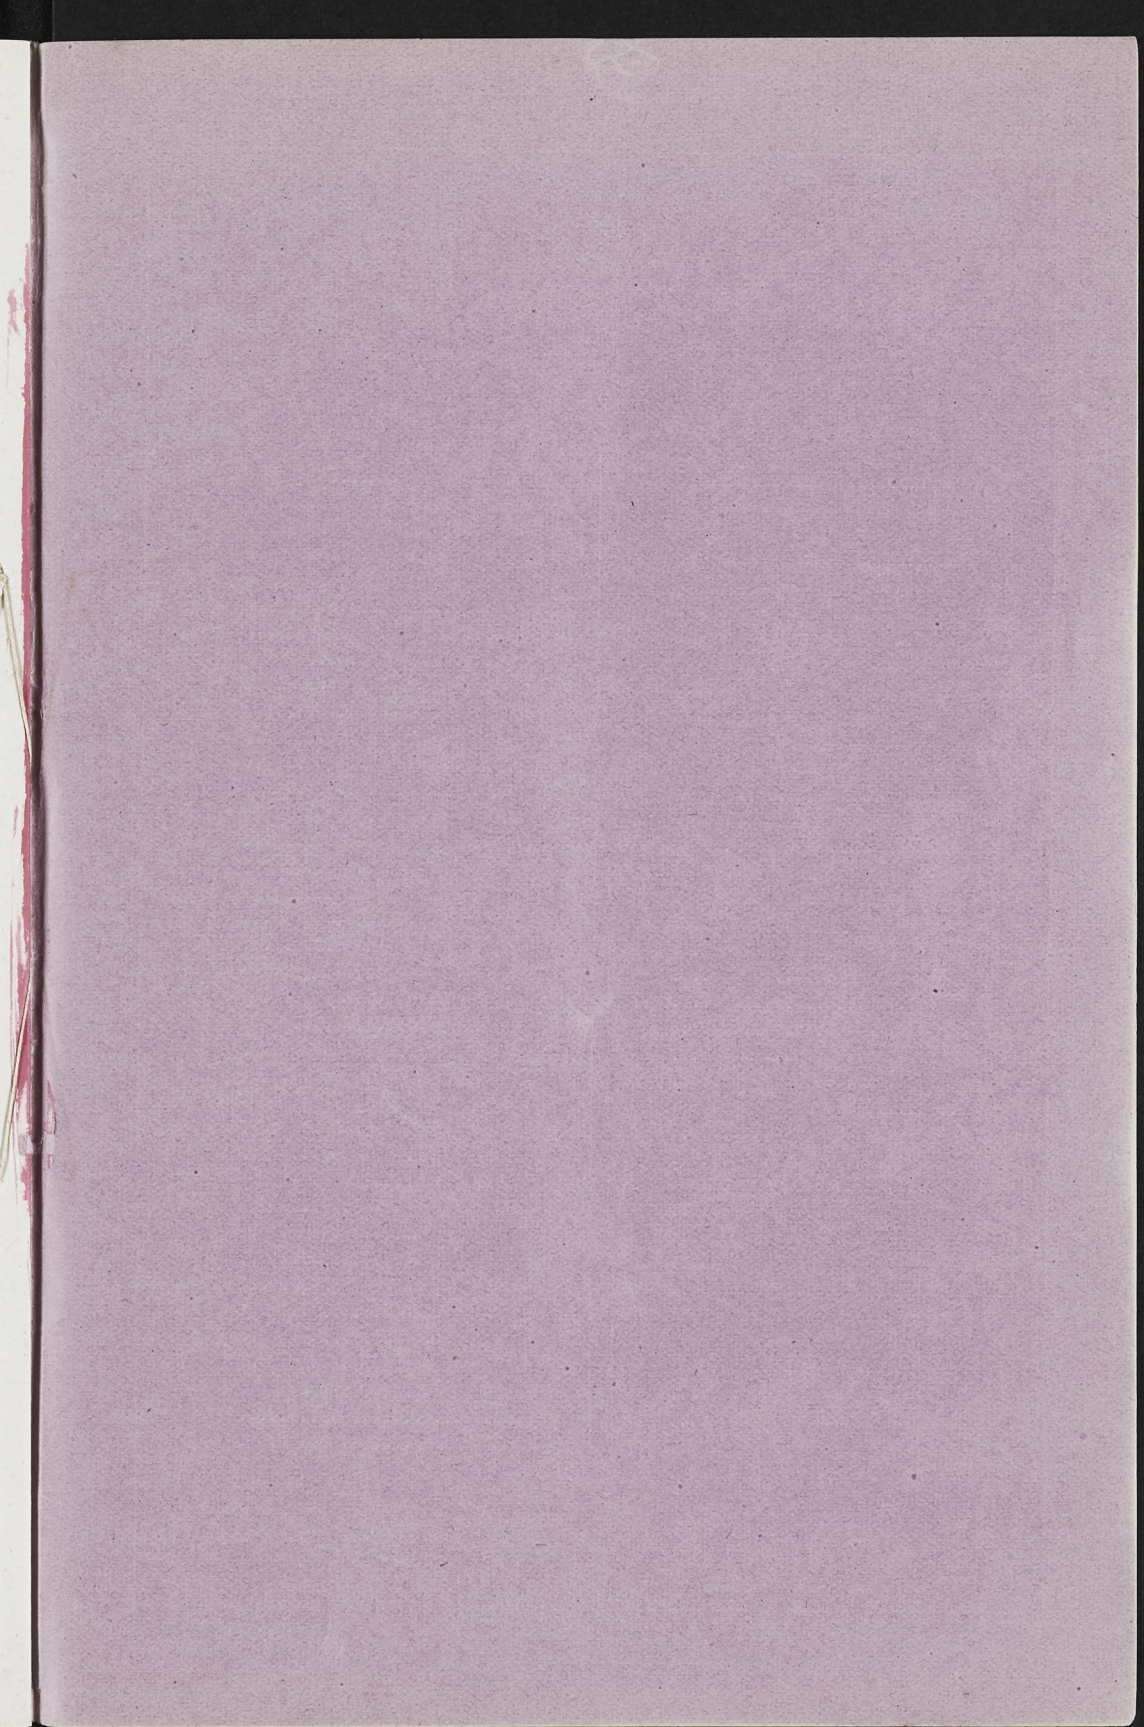

Osmanthus Aurea Variegata —Leaves variegated with yellow.....	\$3 00
Paeonia Moutan (<i>Japanese Tree Paeonia</i>)—This class of plants is known for its showy character. They grow well, are hardy, and flourish everywhere. Their colors are very distinct.....	3 00
Pine (<i>Pinus</i>) Densiflora —A very large Japanese Pine.....	1 00
“ Aurea —A very beautiful Pine, the foliage is of a golden yellow.....	4 00
“ Mariana —A beautiful dwarf Pine, of a very bright green color.....	2 00
Pinus-Massoniana —A large sized Japanese tree, remarkable for its fresh, bright green tint.....	1 00
“ Massoniana Variegata (<i>The Sun Ray Pine</i>)—The most charming of all Pines; the light golden variegation is well defined and distinct. The whole appearance is remarkably attractive. Very rare.....	5 00
“ Parviflora Argentea Variegata (<i>Small Flowered Pine</i>)—Small tree, with very glaucous leaves, finely variegated with silvery white; the variegation is very definite; new and rare.....	4 00
Rhus Laciniata —A beautiful low tree, with leaves of very large size, deeply cut and dropping gracefully from the branches; color of a rich red in Autumn.....	1 00
“ Osbeckii —A new variety, assuming in Autumn a reddish fawn and orange color.....	1 00
“ Succedanea (<i>The Japanese Wax Tree</i>).....	1 00
Viburnum Sieboldii —A variety of the Snow Ball, the twigs and stems being of a beautiful red color.....	1 50
“ Sieboldii Folia Variegata —A variety of the above, having the foliage variegated with yellow and pink.....	2 50
Quercus Cuspidata (<i>Oaks</i>).....	1 50
“ Folia Aurea Reticulata	5 00
“ Folia Argentea Variegata	3 00
“ Laciniata	4 00

And various variegated leaved and Ornamental Trees and Plants.

HEDGE AND BORDER PLANTS.

Privet Evergreen —Per hundred.....	5 00
Pomegranate —Dwarf. Per hundred.....	10 00
